

NEW EARTH CONSTELLATIONS

Date: 4-5 September 2026

Time: Day 1: 11am – 6pm

Day 2: 10am – 6pm

What is the true purpose of doing family constellations?

- Other than my immediate heart's desire and my resolution of my issue, is there another, much bigger, reason for doing family constellations?
- Once I have looked at my most influential ancestral issues, what next?

Many people are on a deep healing journey and waking up right now.

Traditional Family constellations can play an important part in this, and help expand our awareness from an individual thinking to us being part of something wider, like our family field.

- Once we have moved away from the conditioning of our ancestral field, how do I fill the space that has been created, so I don't fall back and refill it with new conditioning?
- Can we combine and utilise the constellation process for the big journey that so many of us are on to 'wake up' and release ourselves from the collective conditioning?

There is a very big process that Mother Earth is going through right now – she is raising her energy and with that we are all asked:

- How can we raise our energy alongside in order to follow her?

We live in a most exciting time in the universe (I know time does not exist in other levels, but here, on planet earth it is still a reality). We are invited to be part of an amazing event in the universe, the ascension of mother earth from 3D to 5D.

- What place does family constellation have in this?
- How can we widen how we apply family constellations to support ourselves and others in this process?

I have spent the last 8 years pondering on this and would like to invite a small group of select people to come on a journey with me that expands on what we already know about family constellations, put it on a bigger map and see if we can use the process for more than just 'clearing the ancestral field'

If you are open to go an exploration that may take you to places that you:

- Open your mind and heart to a wider view of the world, life and purpose of our being here, then you are welcome to join me on this 2-day get together.

It will in part be me sharing an extension of Bert Hellinger's work, and adding it to a new dimension, leading to the exploration if, within that context, there is value in applying constellations in a new way.

The group will be kept small so there is time for personal exploration through individual constellations – the intention is to provide a NEW EARTH CONSTELLATION for each individual.

Cost: £299
